DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11 and 23, are drawn to a screening assay using HCVp7.

Group II, claim(s) 13, is drawn to assessment of HCVp7 ion channel formation.

Group III, claim(s) 15-16, 25 and 26, are drawn to an inhibitory compound of HCVp7 activity.

Group IV, claim(s) 17-20 and 27-29, are drawn to methods of making a medicament.

Group V, claim(s) 21, is drawn to a membrane incorporating HCVp7.

Please note that claims 12, 14 and 22 are canceled and claims 24 and 30 are improper multiple dependent claims.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the shared technical feature, HCVp7, is well taught by the prior art. The teachings of US Patent 7256005 (Zitzmann) disclose the claimed invention, including a method of screening for an inhibitor of HCV p7 protein and membranes incorporating these proteins (see whole document). Therefore, the shared technical feature is not a special technical feature within the meaning of PCT Rule 13.2.

Comment [BC1]: Whenever there is a use claim, you want to make sure you characterize it as a method, not a composition. Why give them the chance to elect a composition, and then you may need to rejoin method claims later in prosecution?

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
